

# KASHRUT: DAIRY/MEAT: TASTE TRANSFER IN COUNTERTOPS

## Hot, Wet Taste Transfer in Countertops

A hot (120° F--49° C--or more), wet utensil transfers its gender to a countertop upon which it is placed, but only at the area of contact.

Status of Countertop

1. Gender status of the countertop:

- D'rabanan, the countertop area of contact remains that gender until kashered (as long as the countertop material is kasherable).
- D'oraita, the countertop reverts to kosher-neutral/pareve after 24 hours.

**NOTE** If the utensil and counter were not wet (nor dirty with food) at the area of contact, there is b'di'avad no transfer of gender.

2. If you put a hot, wet utensil of the opposite gender on that same spot, that counter space may become non-kosher.

## STATUS OF UTENSILS

If the counter had not had a hot, wet utensil/container of food of the opposite gender placed on the same spot within 24 hours of each other, the utensils may be used and the utensils are still kosher.

## STATUS OF FOOD

This does not apply to food that is *directly* placed on the counter, in which case the food might become non-kosher.
