SUKKA: WALLS

Sukka: Walls: Tree Trunk

You may use the trunk of a tree as part of a <u>sukka</u>, but consult a <u>rabbi</u> about the spacing and curvature of the roots.

Sukka: Walls: Flapping

The walls of a <u>sukka</u> must be able to withstand wind without flapping up from the bottom to more than 10.5 inches above the ground.

Sukka: Walls: Bracing

The <u>sukka</u> does not need to be freestanding. When setting up a <u>sukka</u>, you may brace the walls with rope, boards, against tree or house... in any way you wish. You may not brace or attach supports to the walls on the festival but you may directly ask a non-Jew to do that work for you.
