

AGRICULTURE

INTRODUCTION TO AGRICULTURE

Introduction to Agriculture

All of the Jewish festival holidays had an agricultural element to them.

Agricultural laws include Kilayim, Orla, Reishit, Teruma/Ma'aser, Shmita, and Yashan, as well as special laws applying only to fruit trees. Some of these laws still apply today by Torah law (d'oraita) while others, such as First Fruits (bikurim), only apply when the Jerusalem Temple stands and so are not practiced now. Others are observed today as "practice" for when the Temple is rebuilt.

FORBIDDEN MIXTURES (KILAYIM)

INTRODUCTION TO FORBIDDEN MIXTURES (KILAYIM)

Introduction to Forbidden Mixtures/Kilayim

The limits of kilayim keep:

- Individual creations true to themselves, in the way they were created by God, and
- Different, or opposing, spiritual forces governing creation in their own places and within their own bounds.

In the holiness of the Tabernacle or Temple, where opposites were peaceably and constructively resolved, kilayim in the form of sha'atnez was not only permitted but formed the foundation of all main tapestries and two of the High Priest's garments.

NOTE The Shulchan Aruch lists over 120 halachot pertaining to kilayim in planting!

Kilayim-type laws apply today to:

- Animals (not yoking an ox and donkey together; not interbreeding, say, a horse and a donkey to produce a mule),
- Food (not eating milk with meat),
- Clothing - not wearing a garment made of a mixture of linen and wool (sha'atnez), and
- Plants (interplanting, interbreeding, and grafting different species).

NOTE Vineyards in Eretz Yisrael may only be near fruit trees if:

- A wall divides fruit tree and vineyard, OR
- The vineyard is not a bona fide vineyard. A bona fide vineyard has at least 5 grapevines in at least two rows, with at least two vines in one row and three in the other.

Vineyard

Minimum Kerem: Vineyard of Five Vines in Two Rows

*Note Minimum Row is Two Vines

FORBIDDEN MIXTURES (KILAYIM): ANIMALS

CROSSBREEDING ANIMALS (KILAYIM)

Using an Animal Crossbred by Someone Else

You may not crossbreed animals, but you may use such an animal if it was already crossbred by someone else.

FORBIDDEN MIXTURES (KILAYIM): PLANTS

FORBIDDEN MIXTURES (KILAYIM): PLANTING IN EARTH

Kilayim: Planting in Eretz Yisrael

Do not plant two species of fruit or vegetable plants (and trees) together (“*kilayim*”) in *Eretz Yisrael*. The prohibition covers all types of food-producing plants: herbs; vegetables; grains; trees....

EXAMPLE In *Eretz Yisrael*, do not plant a vegetable with a fruit or grain or one type of vegetable with another type of vegetable, one type of fruit with a different type of fruit, and one type of grain with another type of grain.

FORBIDDEN MIXTURES (KILAYIM): PLANTING IN POTS

Kilayim: Planting in Pots in Eretz Yisrael

Within *Eretz Yisrael*, you may not plant disparate species in the same pot if the pot:

- Is made of wood or earthenware, or
- Has a hole in the bottom, regardless of the material it is made from.

If the pot does not have a hole in the bottom and if it is made of plastic, glass, or metal, you may plant multiple species together.

Kilayim: Planting in Pots outside of Eretz Yisrael

Outside of *Eretz Yisrael*, plants in pots are not subject to *kilayim* laws.

FORBIDDEN MIXTURES (KILAYIM): GRAFTING

Grafting When Kilayim

You may not:

- Graft two trees of different species together (grafting a branch or shoot from one tree onto the trunk of a different type of tree).
- Pay someone else to graft a tree for you, not even a non-Jew.

NOTE You may use such a tree if it was already grafted by someone else.

ORLA

ORLA: GENERAL QUESTIONS

Orla: Which Uses Are Prohibited

You may not use orla fruit for any type of use or benefit (asur b'hana'a); the prohibition is not just for eating.

Orla: Which Fruit Is Orla

Do not eat tree fruit for the first three years of the tree (orla); any tree fruits from the fourth year (neta revai) must be redeemed with a pruta before eating, even outside of Eretz Yisrael.

NOTE It is not possible to redeem neta revai in the old city of Jerusalem!

Orla: Which Part of the Plant Is Prohibited

Only orla fruit is forbidden, but the tree may be used.

Orla: Who Is Prohibited from Growing Orla

Orla applies to fruit grown by both Jews and non-Jews.

ORLA: HOW TO CALCULATE

Orla Planting Deadline

Trees planted at least 45 days before Rosh Hashana (that is, by Tu B'Av) are considered to be one year old on that Rosh Hashana.

How To Calculate When Orla Is Over

You may eat tree fruit if the tree's buds appeared after Tu B'Shvat of the fourth year. This may be a span of only 2.5 years if the tree was planted on or before Tu B'Av (at least 45 days before Rosh Hashana):

- 1st Year Tu B'Av to Rosh Hashana #1
- 2nd Year Rosh Hashana #1 to Rosh Hashana #2
- 3rd Year Rosh Hashana #2 to Rosh Hashana #3
- 4th Year Rosh Hashana #3 to Tu B'Shvat

EXAMPLE A fruit tree planted on Tu B'Av, Aug. 15, 2011, will be one year old 6 weeks later, on Rosh Hashana, Sept. 29, 2011. By Rosh Hashana, Sept. 5, 2013, the tree will have completed three years and it enters its fourth year. Buds that appear on or after Tu B'Shvat, Jan. 15, 2014, and turn into fruit will be neta revai and may be redeemed and eaten.

Orla: Doubt about Tree Age in Eretz Yisrael

Do not eat fruit from a tree growing in Eretz Yisrael if you are not certain about the age of a tree that might be three years old or less.

Orla: Doubt about Tree Age outside of Eretz Yisrael

You may eat fruit from a tree growing outside of Eretz Yisrael if you are not certain about the age of a tree that might be three years old or less.

Orla: Transplanted Trees

If a tree (whether younger or older than 4 years) is transplanted but did not have enough soil on its roots to live for several years, restart counting orla from zero.

ORLA: INDIVIDUAL FRUITS

Orla: Grapes outside of Eretz Yisrael

Outside of Eretz Yisrael, only grapes (not other types of “tree” fruit) need to be redeemed in the fourth year of their growth in order to eat them.

NOTE We are lenient in using commercially grown grapes due to doubt as to the grapevines' ages.

Orla: Papayas in Eretz Yisrael

Papayas grown in Eretz Yisrael may not be usable, since papaya trees don't normally live for four years.

NOTE There is a difference of opinion as to the blessing over eating papaya—borei pri ha'eitz or borei pri ha'adama.)

FIRSTS (REISHIT)

INTRODUCTION TO FIRSTS (REISHIT)

Introduction to Firsts (Reishit)

Jews thank God for His blessings by giving Him the “first” (reishit) of various products (as well as a tenth/ma'aser of agricultural and other wealth).

“First” applies to:

- First-Born/Petter Rechem
 - First-born male children/petter rechem (redeemed with money; see [Introduction to Pidyon HaBein](#)).
 - First-born male kosher domestic animals (calf, lamb, kid)/petter rechem (in Temple times: sacrificed on altar; now, permanent holy status--see [Selling Mother Animal before Birth of Petter Rechem](#)).
 - First-born male donkeys/petter rechem chamor (redeemed with sheep/goat; holiness of both the donkey and the sheep or goat then disappears).

- Dough/Challa

In Temple times, given to cohen; now, see [When To Separate Challa \(Hafrashat Challa\)](#).

- First Fruits/Bikurim

In Temple times, the Jew (man or woman) brought the bikurim fruits to the area between altar and Temple building; only the man said the

- First Shearing/Reishit HaGeiz

Portion of sheep's wool (reishit ha'geiz) (given to cohen).

NOTE All of the above have holy status except for the wool and the human petter rechem.

REISHIT: KOSHER DOMESTIC ANIMALS

PETTER RECHEM

Selling Mother Animal before Birth of Petter Rechem

SITUATION The first-born male baby of a female kosher domestic mammal or of a female donkey, if completely owned by a Jew, is a petter rechem (which may not be used for any purpose).

WHAT TO DO

Before the mother has her first baby, sell part of her to a non-Jew so the firstborn will not be wholly owned by a Jew and, if male, will not become a petter rechem. Rabbinic guidance is recommended!

REISHIT: PIDYON HABEIN

TERUMA/MA'ASER

TERUMA/MA'ASER: WHICH PRODUCE TO SEPARATE

TERUMA/MA'ASER: LOCATION

Teruma/Ma'aser: Location: Grown in Eretz Yisrael

Teruma and ma'aser laws only apply to produce grown in Eretz Yisrael.

TERUMA/MA'ASER: TYPES OF PLANTS

Teruma/Ma'aser: Types of Plants: Herbs

Separate teruma and ma'aser on herbs grown in Eretz Yisrael.

TERUMA/MA'ASER: OWNERSHIP

Teruma/Ma'aser: Ownership: Separating Hefkeir Produce

“Ownerless” (hefkeir) fruit does not require having teruma and ma'aser separated even after it has been brought into your house.

Teruma/Ma'aser: Ownership: What Is Hefkeir Produce

Halachically ownerless (hefkeir) fruit is fruit that will not be collected or picked by or for the owner, whether the fruit is:

- Still on the tree or fallen on the ground.
- Growing on public grounds or privately owned property.

TERUMA/MA'ASER: QUANTITY

Teruma/Ma'aser: Quantity: On How Much To Separate

Separate teruma and ma'aser on any amount of produce grown in Eretz Yisrael.

Teruma/Ma'aser: Quantity: How Much Is Teruma Gedola

Teruma gedola is 1/50th of the total food. But today, since the cohen does not eat it, we remove a smaller amount.

TERUMA/MA'ASER: WHEN TO SEPARATE

Teruma/Ma'aser: When To Separate: Not on Shabbat

You may not separate teruma and ma'aser on Shabbat since it is “fixing” the food by making it usable.

Teruma/Ma'aser: When To Separate: Cooking Outside

SITUATION You cook, outside, fruit from a privately owned tree in Eretz Yisrael.

WHAT TO DO You must separate teruma and ma'aser if you bring the cooked fruit indoors.

TERUMA/MA'ASER: HOW TO SEPARATE

PROCEDURE FOR SEPARATING TERUMOT AND MA'ASROT

Procedure for Separating Terumot and Ma'asrot

(from [kashrus/kk-medi-terumos.htm](http://www.star-k.org/kashrus/kk-medi-terumos.htm)"><http://www.star-k.org/kashrus/kk-medi-terumos.htm>, used with permission)

Post this document in a conspicuous place.

NOTE The coin you are using for the separation must be in front of you (for the ma'aser sheini).

1. Break or cut off more than one hundredth of the food and set it aside (for teruma and terumat ma'aser).
2. Say the following (either in Hebrew or English):

Yoteir me'echad me'me'a she'yeish kahn harei hu teruma gedola be'tzad tzefono. Oto echad me'me'a she'yeish kahn ve'od tish'a chalakim k'moto be'tzad tzefono shel ha'peirot harei hu ma'aser rishon. Oto echad me'me'a she'asitiv ma'aser rishon asuy terumat ma'aser, uma'aser sheini b'dromo, u'mechulal hu ve'chumsho al peruta be'matbei'a sh'yichidita lechilul ma'aser sheini ve'revai. Ve'im tzarich ma'aser ani ye'hei ma'aser ani bi'dromo. Im hu revai ye'hei mechulal hu ve'chumsho al peruta be'matbei'a she'yichidita le'chilul ma'aser sheini ve'revai.

(Im ma'aser minim harbei tzarich le'hosif) "kol min al mino."

Translation

(If there is a food of one type that requires separation) Whatever is MORE than one hundredth of this food shall be teruma on the north side of the piece that I have set aside. The one hundredth that is left in the piece I have set aside plus nine other pieces the same size on the north side of the food shall be ma'aser rishon. That same one hundredth in the piece I set aside that I have made ma'aser shall be terumat ma'aser.

Furthermore, I am proclaiming ma'aser sheini to be in effect on the south side of the food, and I am redeeming it and its fifth on a pruta (smallest amount of money recognized by the Torah for most purposes) of this coin which I have in front of me. If this food needs ma'aser ani, the ma'aser ani shall take effect on the south side of the food.

If this food is subject to the laws of neta revai then it and its fifth shall be redeemed on a pruta of this coin that I have in front of me.

If there is a food of more than one type, add each type of food for its type.

3. Wrap the broken or cut-off piece in plastic and discard.
4. The coin--dime or coin of greater value--must eventually be disposed of in such a manner that it will not be used.
5. The food may now be eaten.

If you do not want to say the long version, you may say this shorter version, after having separated a piece larger than 1% of the total food:

All separations and redemptions shall take effect as is specified in this Star-K document outlining the Procedure for Separating Terumot and Ma'asrot, Tithes and Redemptions, which I have in my possession.

Whether saying the long or short version, only a little over one hundredth of the food will not be permitted to eat; all the rest may be eaten. Even though the tithes constitute over one fifth of the food, one is permitted to eat most of the tithes oneself, even though he may not be a Cohen or a Levi. Under no circumstances will it suffice merely to break off a piece of the food and throw it away. The aforementioned instructions must be strictly followed. The laws of the tithes apply to everyone, including the Cohen and Levi.

IMPORTANT

You must say the blessing lehafrish trumot u'ma'asrot if you know the produce definitely needed to have teruma and ma'aser taken; it was definitely:

- Grown on Jewish-owned land in *halachic Eretz Yisrael* and
- Had not yet had teruma and ma'aser taken from it.

BUT you must not say the blessing if the produce might have:

- Not been grown on Jewish-owned land in *halachic Eretz Yisrael*, OR
- Already had teruma and ma'aser separated.

NOTE The State of Israel is not the same as *halachic Eretz Yisrael* (that area of Eretz Yisrael owned or conquered by Jews during the Second Temple period).

More on Teruma/Ma'aser

For more on teruma and ma'aser, including a short form of the text, see kashrus/kk-medi-terumos.htm target="_blank">Star-K article

Teruma/Ma'aser: Bal Tashchit

Teruma that is separated and destroyed is not considered to be a violation of bal tashchit, since it is done to fulfill a commandment/mitzva.

SHMITA

INTRODUCTION TO SHMITA

Introduction to Shmita

Every seventh year, fruits, vegetables, grains, and legumes grown in Eretz Yisrael are subject to the laws of “shmita,” which entail letting the land rest.

Holiness of Shmita Produce

Fruits, vegetables, grains, legumes, etc., grown in Eretz Yisrael holiness. This holiness determines how we may treat fruit during shmita, including how to eat it and how to dispose of it.

Which Produce Is Subject to Shmita Laws?

All fruits, vegetables, grains, and legumes that grow in Eretz Yisrael are subject to shmita laws. However, since there is a rabbinic decree that we may not eat vegetables and grains (called “sfichin”) that grow in Eretz Yisrael during shmita year, we will mainly be discussing fruits.

NOTE Vegetables, grains, and legumes that are not raised in *halachic Eretz Yisrael* are never subject to shmita laws. So if a fruit or vegetable was grown outside the borders of Second Temple period Eretz Yisrael, you may eat that fruit or vegetable with no shmita concerns. Such areas may include much of the southern part of the State of Israel, including the Arava and southern Negev all the way to

Eilat, land south of Gaza, etc. Some people include the Golan. Many people also include any land currently “owned” by Arabs.

Plants grown off the ground or inside a house are also not subject to shmita.

When Is Shmita?

The next shmita year will be observed beginning Rosh Hashana, September 2014.

SHMITA: FRUIT

Shmita: Fruit: Otzar Bet Din

SITUATION You may not sell shmita fruit in the normal manner.

WHAT TO DO An otzar bet din can be set up to distribute fruit and pay the farmer for his work on distributing. The otzar bet din then distributes the fruit to the public and gets reimbursed for the expenses.

Shmita: Fruit: Who May Eat

Shmita produce is ownerless and free for use by anyone.

Shmita: Fruit: How To Eat

You may eat fruit of the shmita year in Eretz Yisrael, but only in the normal way for eating that fruit.

Shmita: Fruit: How To Dispose Of

You may not put shmita peels, cores, and other waste parts into the garbage (unlike teruma, you may not double-bag them and put them in the garbage). You must put them aside to rot before disposal.

Shmita: Canned Fruit from Eretz Yisrael

You may not buy canned fruit or other produce from Eretz Yisrael (even in later years) if the produce grew during a shmita year (except through an otzar bet din). This may be a problem with exports from Israel.

SHMITA: GRAIN AND VEGETABLES

Shmita: Grain and Vegetables: Benefiting From

You may not use grain and vegetables grown in Eretz Yisrael from a shmita year in any way (and no benefit may be derived from them).

SHMITA: PLANTS

Watering the Ground during Shmita

In Eretz Yisrael, you may not pour water on the ground during a shmita year if plants will benefit.

Spitting Seeds During Shmita

In Eretz Yisrael, you may spit seeds on the ground during a shmita year as long as they are inedible.

SHMITA: WINE

Buying and Using Shmita Wine

You may not buy wine from grapes grown in Eretz Yisrael during a shmita year unless you buy it from an otzar bet din. Even if you do buy from an otzar bet din, it is not recommended to buy shmita wine since you:

- May not waste even one drop,
- Must use it only in the normal way, and
- May not dispose of the residue in the bottle until it has become unpotable.

YASHAN

INTRODUCTION TO YASHAN

Introduction to Yashan

Only yashan grain should be used. Yashan means one of the Five Grains that was planted at least three days before Passover and has now passed the first day of chol ha'moed of Passover. Grain planted after one Passover that has not passed the first day of chol ha'moed of the following Passover is known as "chadash."

Grains Subject to Yashan

Wheat, barley, oats, rye, and spelt are subject to yashan.

Where Yashan Applies

Yashan applies to grain grown anywhere in the world.

NOTE Although yashan is from the Torah, some people outside of Eretz Yisrael are lenient about yashan with regard to grain that was grown outside of Eretz Yisrael.

YASHAN: HALACHOT

When Grain Becomes Yashan

You may use grain as "yashan" after the first day of chol ha'moed Passover. "After" means the third day of Passover in Eretz Yisrael and the fourth day outside of Eretz Yisrael.

Yashan and Matza

Matza is normally made from winter wheat and so does not normally have a question of being chadash.

FRUIT TREES: SPECIAL LAWS

FRUIT TREES: BLESSING OVER BLOSSOMS

When To Say Blessing over New Fruit Blossoms

The first time each year that you see blossoms on an edible-fruit tree, say the blessing "shelo chisar ba'olamo davar..." It may be anytime throughout the year, not only in Nisan. If you live in a region in which fruit trees blossom all year round, you should say "shelo chisar"... in Nisan after you see some new blossoms.

NOTE You may say the blessing on a single tree, even though the blessing says "trees" (plural).

FRUIT TREES: REMOVING

Laws on Removal of Fruit Tree

You may not remove a fruit tree that is still producing fruit, even

- For lumber,
- If the tree is diseased,
- If a replacement tree would yield more fruit.

EXCEPTION A fruit tree may be uprooted or cut down if it is not producing at least 46 oz. (2 lbs., 14 oz.-- about 1.3 kg) of fruit each year.

Removal of Productive Fruit Tree

To remove from your property a fruit tree that produces at least 46 oz. of fruit each year, you must sell the tree to a non-Jew. The non-Jew may then remove it.
