CHANUKA: CANDLES: WHERE TO LIGHT

Chanuka: Candles: Light in Own Home, Except...

Light *Chanuka* candles in your own house, unless you are not in the city in which you live.

NOTE Even though the *menora* is for publicizing the miracle, *Chazal* set the observance to take place in each person's home (and not in groups at one home with several families together).

Chanuka: Candles: Place Anywhere

You may place *Chanuka* candles anywhere (but they should be lit wherever you are staying). Outside of *Eretz Yisrael*, it is customary to place them by a window, ideally facing the street.

NOTE Consult a *rabbi* as to whether candles should be lit inside an aquarium or other box as is sometimes done in Israel, since the candles should not be lit in a place where the wind would blow them out if not for the box around them.
