

# DAMAGES

## **Abusing Rental Cars**

You may not abuse a rental car. This means you may not use it in any damaging way that you would not do to your own car.

## **Recovering Damages**

When a company damages something of yours, you are entitled to do what you need to in order to get compensated--as long as it is legal. This is ethical and honest and you do not need to actually do what the company wants or tells you to do.
