Eating before Jewish Festival Midday

As on *Shabbat*, don't fast on *Jewish festivals* (except *Yom Kippur*!) past *halachic midday*.

- If you will not finish *shacharit* before *halachic midday*, you should eat or drink earlier in the day, even before you begin *shacharit*—water can be sufficient for this purpose.
- If you will finish *shacharit*, but not *musaf*, by *halachic midday*:
    - Finish *shacharit*,
    - Make *kiddush*,
    - Eat some *mezonot*, and then
    - Return to say *musaf*.
