## To Lift Up the Torah

## To lift up the *Torah*:

- Grip the handles close to the plate at the top of the lower handles.
- Roll the *Torah* so that three columns are exposed and one of the seams is between the two rollers (this is a custom).
- Lever up the <u>Torah</u> (you may slide the <u>Torah</u> down the table toward yourself if that makes it easier).
- Show the *Torah* to people on your right and then on your left.

If you want to turn in a circle, turn to counter-clockwise as seen from above.

• At the end of rolling (*glila*) closed the *Torah*, there should be a seam between the two rods on which the *Torah* is rolled (such that if it were to tear, it would likely tear at the seam and no words of *Torah* would be torn).
