

# "Stretching Out" Echad in Shema

Stretch out the first line of the shema by pausing after saying “*echad*” and before saying Baruch shem kevod malchuto l'olam va'ed.

## NOTE

- It is incorrect to stretch out the “*chet*” + vowel sound (*chaaaaaad*).
- It is incorrect (and much worse) to say a vowel sound after the “*dalet*” (*echadihhh!*), since that changes the word and by doing so, you are not saying the shema.
- The “*dalet*” stops the sound and should not be pronounced as a syllable.
