JEWISH FESTIVALS: SUNSCREEN

Jewish Festivals: Sunscreens

To use a fluid on skin on *Jewish festivals*, even sunscreen that may be needed to protect damaged skin, the fluid must flow without lumps and not be more viscous than honey at room temperature. Therefore, apply sunscreen only if fluid (but not a cream or thick liquid).

Jewish Festivals: Diluting Sunscreens before Festival

You may dilute sunscreen before *Jewish festivals* with water or alcohol, but some sunscreens may not become more fluid even with added water or alcohol.
