KASHRUT: DAIRY/MEAT: COUNTERTOPS

KASHRUT: DAIRY/MEAT: SEPARATE COUNTERTOPS

Separate Dairy and Meat Countertops

Ideally, allot separate counter space for meat and dairy so they do not share the same space.

KASHRUT: DAIRY/MEAT: TASTE TRANSFER IN COUNTERTOPS

Hot, Wet Taste Transfer in Countertops

A hot $(120^{\circ} \text{ F--}49^{\circ} \text{ C--or more})$, wet utensil transfers its gender to a countertop upon which it is placed, but only at the area of contact.

Status of Countertop

- 1. Gender status of the countertop:
 - *D'rabanan*, the countertop area of contact remains that gender until *kashered* (as long as the countertop material is kasherable).
 - *D'oraita*, the countertop reverts to *kosher*-neutral/*pareve* after 24 hours.

NOTE If the utensil and counter were not wet (nor dirty with food) at the area of contact, there is *b'di'ayad* no transfer of gender.

2. If you put a hot, wet utensil of the opposite gender on that same spot, that counter space may become non-*kosher*.

STATUS OF UTENSILS

If the counter had not had a hot, wet utensil/container of food of the opposite gender placed on the same spot within 24 hours of each other, the utensils may be used and the utensils are still *kosher*.

STATUS OF FOOD

This does not apply to food that is *directly* placed on the counter, in which case the food might become non-kosher.
