# KASHRUT: DAIRY/MEAT: POT SPATTERS ONTO UTENSIL OR EMPTY POT

## Kashrut: Dairy/Meat: Pot Spatters: Outside of Utensil, Below Normal Food Line

SITUATION A hot or cold meat utensil is empty or contains meat food. It receives a spatter of <u>dairy</u> below the normal food line and the spatter is less 1/60th of the volume of the pot.

**STATUS** 

- The food in the utensil (if any) is kosher in all cases.
- Pot is *kosher* after 24 hours without *kashering*.

WHAT TO DO You must wash the pot off with cold water and soap.

### Kashrut: Dairy/Meat: Tiny Pot Spatters: Outside of Utensil, Above Normal Food Line

#### **SITUATION**

- The outside of a hot, empty pot of one gender gets a spatter of opposite-gender food ABOVE the normal food line.
- The spatter is less than 1/3600 of the normally used volume of the pot (instead of the normal criterion of 1/60th of the volume--this being 1/60th of 1/60th).

STATUS The pot is *kosher* after 24 hours without *kashering*.

WHAT TO DO You must wash the pot off with cold water and soap.

NOTE This applies even if the pot had been used at 120° F (49° C) or more within 24 hours.

#### Kashrut: Dairy/Meat: Larger Pot Spatters above Normal Food Line

#### **SITUATION**

- A hot, empty pot of one gender gets a spatter of opposite-gender food ABOVE the normal food line.
- The spatter is more than 1/3600 of the normally used volume of the pot.

STATUS The pot is non-kosher.

WHAT TO DO You must <u>kasher</u> the pot by washing in cold water and soap, waiting 24 hours, and then boiling the pot.

### Kashrut: Dairy/Meat: Pot Spatters and Pareve

## SITUATION

- Food of one gender spatters onto the outside of a *pareve* utensil.
- Either the food and/or the utensil are hot.

NOTE If the pot is not hot, a small spatter will not be hot. If the spatter is large (more than one drop),

the spatter may be hot. Ask a *rabbi* what to do.

STATUS The utensil assumes the spatter's gender UNLESS the spatter was less than 1/60th of the

volume of the metal in the pareve utensil (not 1/60th of the volume the container usually

holds). Consult a rabbi.
