ORLA: HOW TO CALCULATE

Orla Planting Deadline

Trees planted at least 45 days before *Rosh Hashana* (that is, by *Tu B'Av*) are considered to be one year old on that *Rosh Hashana.*

How To Calculate When Orla Is Over

You may eat tree fruit if the tree's buds appeared after *Tu B'Shvat* of the fourth year. This may be a span of only 2.5 years if the tree was planted on or before *Tu B'Av* (at least 45 days before *Rosh Hashana):*

1st Year *Tu B'Av* to *Rosh Hashana* #1
2nd Year *Rosh Hashana* #1 to *Rosh Hashana* #2
3rd Year *Rosh Hashana* #2 to *Rosh Hashana* #3
4th Year *Rosh Hashana* #3 to *Tu B'Shvat*

EXAMPLE A fruit tree planted on *Tu B'Av*, Aug. 15, 2011, will be one year old 6 weeks later, on *Rosh Hashana*, Sept. 29, 2011. By *Rosh Hashana*, Sept. 5, 2013, the tree will have completed three years and it enters its fourth year. Buds that appear on or after *Tu B'Shvat*, Jan. 15, 2014, and turn into fruit will be *neta revai* and may be redeemed and eaten.

Orla: Doubt about Tree Age in Eretz Yisrael

Do not eat fruit from a tree growing in *Eretz Yisrael* if you are not certain about the age of a tree that might be three years old or less.

Orla: Doubt about Tree Age outside of Eretz Yisrael

You may eat fruit from a tree growing outside of *Eretz Yisrael* if you are not certain about the age of a tree that might be three years old or less.

Orla: Transplanted Trees

If a tree (whether younger or older than 4 years) is transplanted but did not have enough soil on its roots to live for several years, restart counting *orla* from zero.
