TUM'A: REMOVAL: WASHING CUP

Tum'a: Washing Cup Spout

If a washing utensil has a spout that is lower than the rim, pour only from the spout. If the spout is higher than the rim, pour off of the side or back, opposite the lowest edge level.

REASON The principle is that water may only be poured from the lowest level that can hold water.

Tum'a: Squeeze Bottle as Washing Cup

You may wash your hands for any *halachic* purpose using a squeeze bottle.
